A GLORIOUS NEW SHRUB

Cole's 1940 Introduction. Not Patented.

Cole's Glorious. *Glorious Mockorange*—8'

(Virginale X Rosace.) A Cole origination of great merit. Mammoth flowers of snowy white; large glossy rich green foliage of leathery texture densely set on the shrub. Strong upright neat growing compact shrub, profuse in bloom. A most prominent hybridist and horticulturist who has personally done a great deal of work on Mockorange proclaims Cole's Glorious to be the finest of all.

Chrysanthemums

NEW AND KOREAN CHRYSANTHEMUMS

Without question the greatest new creation in the perennial world. Korean Chrysanthemums are perfectly hardy—a requisite for satisfaction lacking in the old types; they are easier to grow and are more profuse in blooming. The lovely pastel shades defy description. Wonderful for table decoration and compelling for color effect in the garden.
